Feedback for Esther Ajayi

vrijdag 20 oktober 2023   19:37

Assessment Score: 87
Capstone Project Quality of Work: Exceeds expectations (E)
Capstone Project Completion of Objectives: Exceeds expectations (E)

Verbal Feedback:
Esther, your capstone project not only met but exceeded all objectives. Your contributions in class are consistently insightful.

How would you rate the project	What did this person do that stands out as effective and noteworthy? (1 or more things)	What might be an area of improvement to focus on?
5	The creativity of having a unique item for sell	N/A
5	The color theme pops and appealing to the eye. She taught herself SASS for this project which encapsulates what programming is about.	I have no critique for her.
5	the theme stand out, very beautiful	more pictures in the site
5	Amazing use of a variety of frameworks. Great great job!	I would add more variety of color for depth on your page. Adding a couple of borders or gradient
5	I like that you learned how to uses Sass to get the pages to look how you want.	Everything looks great!!
5	The overall theme matched in all pages, used custom themes	I think text readability could be improved since the text blended in with the background which has a similar color. The text on the login/checkout page was more readable.
5	I really like how warm it is. The registration page is very unique and original. I love the logo on the shopping cart. The easter egg was so cool. Love that Linked in.	Very Inspirational. Sorry cant give much improvement cuz I really enjoyed it
5	My favorite part was the creativity, from using fictional products to the point of using Sass coding to go past what Bootstrap's framework allows you to do.	I can't think of an area of improvement. Esther challenged herself to go past Bootstrap's framework and use Sass to her advantage here.
5	Learning and implementing SASS within the week is amazing! The design and products were beautifully done!	For the "how'd you find out about us" you could potentially put it before the submit button just to make sure your customers are seeing that section of the page.
5	Excellent display of skills and colors	Sharing her skills
5	Made a custom color scheme to	Lay out the form structure better for

	override bootstrap.	readability.
5	creativity, colors, visually apealing website, good marketing.	suggestion : I noticed you were able to choose multiple radio buttons, by def you should only be able to choose one, there is a easy fix for that just give all radio buttons same name attribute
5	The aesthetic and color scheme of the site was really appealing, the warm color scheme really made it pop and stand out.	N/A
